Day 1
- Friday 5 May -  
School photos  
catch up day &  
Green Turtles
- Busy Bees  
Playgroup - Every  
Thursday 9:15am  
- 10:45am

## Principal's Message

Dear Families,

Welcome to Week 10 of the term! Next Thursday is the final day for students of Term 1.

Students begin school for Term 2 on Wednesday 26 April.

There's lots of excitement amongst the students about next week's events. The cross-country is next Tuesday April 4 at Arkinstall Park. We will be seeing out the term with the Easter hat parade, next Thursday 6 April. You are more than welcome to attend this event. It will commence at 2:30pm in the hall. Each class will have the opportunity to parade their hats. A separate note about this has also been sent home.

On April 25 we will be participating in the ANZAC commemorations at Christ Cunningham Memorial Park near Jack Evans boat harbour. Our students are invited to participate in the march at 10:00am. A separate note about this will be sent home. It would be wonderful to see many Tweed South faces on this special day.

I wish you all a safe and happy break!

Melinda Parmenter

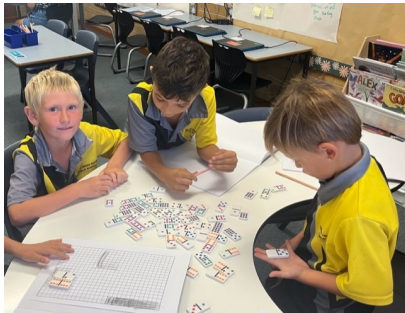

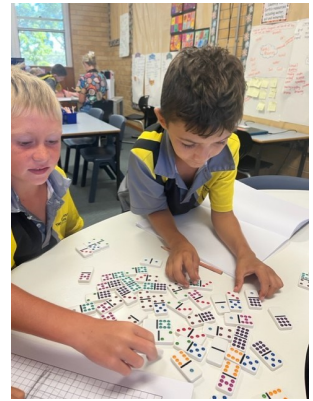

Principal

# Guyaany

Term 1 has been a busy term of fun and learning for our Guyaany students. We have had loads of fun making ice cream in our Science lessons and identifying the different natural treasures our earth is made up of. We have learned all about patterns through music and playing cup percussion. We have also begun training for the Cross Country by running laps of netball courts at Arkinstall Park. With the weather getting a little wet this week some of our students have had a go at handball during break time, it is nice to see them all playing well together!

# Preschool Check in

Week nine has been another wonderful week in preschool. All the children are excited to perform to Jack Hartmann's counting from 1-10 with our friends at this week's P-2 assembly. It's a great way to not only practice our numeracy skills, but also practice our gross motor skills as we dance and count as soldiers, opera singers, monsters, cowboys and babies. In short, a whole lot of fun!

## P&C Update

The P&C are running an Easter Raffle and are asking for donations of easter eggs. Raffle tickets will be available to purchase from the canteen on Friday. Tickets will be \$1 each. Students will receive a book to sell. When you sell your book or would like a new or additional books please see the canteen or the office if the canteen is not open. The raffle will be drawn at our Easter Hat parade.

## PSSA Interschool Tennis

On Tuesday 4 of our students - Meela, Kessler and Jackson - attended the PSSA interschool tennis tournament and competed against Centaur. Unfortunately, we did not make it through to the next round, but we put up a good fight. All students demonstrated exemplary sportsmanship skills and represented our school with pride!

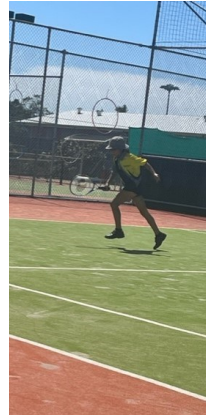

A few words from the students about the day...

It was really fun and hard but it is not about winning. Jackson

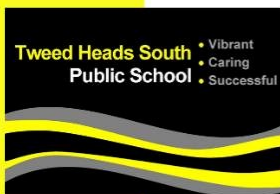

It was really hot day and we tried our best.

It was really competitive and the other team was really nice. Kessler

Overall it was hot, hard and fun. Our team did great, I am sad I can't do it again next year. Meela

## Easter Hat Parade

### Easter Hat Parade 2023

**Thursday 6 April at 2:30pm**

The front gate will be open from 2:15pm.

During the parade, the children will have the opportunity to showcase the Easter hats that they have made at home.

If students are not able to make an Easter Hat, they are encouraged to wear colourful socks or create a funky hair style - the crazier the better.

We would love for you to join us as we share our creative talents.

# A very Convincing Bunch

This term students in the Jan Ban class have been working on persuasive texts. The students have become quite good at putting forward convincing arguments with relevant examples to persuade the reader. Some examples of a proposal we put forward to Mrs Parmenter for a slide in the new building are shown below.

We have also been learning about how plants and animals are dependent on each other for survival in Science this term. The photos below show some students working collaboratively to establish lifecycle chains using a pack of mixed word cards.
